Applicant's arguments filed 11/5/04 have been fully considered but they are not persuasive. The applicant's submission of new prior art in the time period after the first office action necessitated this new grounds of rejection. Further, under the rules of 37 CFR 1.98, if applicants submit an IDS after first office action, the examiner can properly make final the next office action. This was determined to be necessary in this case especially with the reliance on the international search report.

35 USC 102/103:

Claims 1-106 are rejected under 35 U.S.C. 102(a and b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over WO 02/24597 (Mazany et al.), WO 02/24596 (Cartright et al.), or Woolum.

All of the references cited on the international search report teach an inorganic matrix composition comprising the same components in overlapping amounts. Even if not anticipated, overlapping ranges of amounts would have been prima facie obvious to one of ordinary skill in the art.

New Matter:

Claim 106 is rejected under the first paragraph of 35 USC 112 and 35 USC 132 as the specification as originally filed does not provide support for the invention as is now claimed.

The limitation that the structural modifying medium is a fiber would appear to be new matter. Should applicants provide the specific location in the original disclosure for support, this rejection will be promptly withdrawn.

Obviousness Double Patenting:

The ODP rejection has been withdrawn in lieu of applicants' submission of a proper terminal disclaimer.

IDS statement dated 8/23/04:

The DE 324604 reference has not been considered because no English translation was provided with the applicant's IDS submission.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
